A quarter full of stories

Learning • Leadership • Celebration • Participation

Welcome to the July–September edition of The Wings. This issue is designed as a visual record of the school's journey through three energetic months. Every event has its own character—some moments celebrate achievement, some build awareness, some honour tradition, and others strengthen the people and practices that make learning possible.

From the inspiring visit of award-winning filmmaker Jitendra Mishra and the PA1 examination to the Student Council Election, Investiture Ceremony, patriotic observances, competitions, sports, cultural celebrations and professional training, these pages bring together the many dimensions of school life.

Beginnings that inspire

A special visit and an academic milestone

20 JULY Jitendra Mishra — An Inspiring Visit

Cinema, storytelling and creativity came alive through a special interaction with an accomplished filmmaker.

SPECIAL FEATURE

JITENDRA MISHRA • 20 JULY

Students during the interaction with award-winning filmmaker Jitendra Mishra.

The school welcomed award-winning filmmaker Jitendra Mishra on 20 July. His visit offered students a rare opportunity to engage with someone who has worked professionally in the world of cinema and storytelling. The interaction opened a window into the creative process and highlighted how ideas can be transformed into powerful stories.

For young learners, exposure to professionals from different fields can be deeply motivating. The visit encouraged students to observe carefully, ask questions, think creatively and appreciate the discipline behind creative work. It also reinforced the idea that careers in the arts and media demand as much dedication, learning and perseverance as any other profession.

“Creativity grows when curiosity is given a chance to speak.”

27 JULY PA1 Examination

An important checkpoint in the academic journey.

PA1 EXAMINATION

27 JULY

The PA1 Examination on 27 July marked an important academic checkpoint for students. Assessments give learners an opportunity to demonstrate what they have understood, identify areas that require greater attention and build confidence through preparation.

The examination process also develops habits that extend beyond academics—planning, time management, concentration, consistency and responsibility. The school encourages students to view assessments as part of the learning journey and to approach them with sincerity, confidence and a positive attitude.

A month in full colour

Leadership • Environment • Patriotism • Skills • Sport

August brought a remarkable variety of activities to the school calendar. Students experienced democratic participation through the Student Council Election, reflected on environmental responsibility, witnessed the formal transfer of leadership, celebrated national pride and explored skills through competition and sport.

Leadership

Environment

Patriotism

Sport

1 AUGUST Student Council Election

Student voice took centre stage as learners participated in the school's democratic process.

STUDENT COUNCIL

1 AUGUST

The Student Council Election held on 1 August gave students a practical experience of democratic participation. Elections within a school environment help learners understand the importance of making informed choices, respecting different opinions and accepting responsibility for the decisions they make.

The election also introduced students to the idea that leadership is fundamentally about service. Representatives are expected to listen to their peers, communicate responsibly and contribute to a positive school environment. The process therefore became not just an election, but an opportunity to nurture confidence, accountability and civic values.

Nomination & participation

Voting

Student leaders

A moment of celebration

“A position gives authority; responsible action earns respect.”

WORLD ELEPHANT DAY

Awareness • Conservation • Compassion

WORLD ELEPHANT DAY

5 AUGUST

5 AUGUST World Elephant Day

A reminder that protecting wildlife is a responsibility shared by every generation.

World Elephant Day was observed as an opportunity to build awareness about elephants, their habitats and the environmental challenges faced by wildlife. Such observances help students connect what they learn in classrooms with the living world around them.

For young citizens, conservation begins with awareness. Understanding the importance of biodiversity encourages responsible choices and respect for animals and natural habitats. The occasion provided a meaningful reminder that environmental protection is not only the work of organisations and authorities—it is also shaped by everyday attitudes and actions.

Awareness

Wildlife

Learning

Conservation message

“When we protect wildlife, we protect the balance of our shared home.”

INVESTITURE CEREMONY

Leadership • Service • Responsibility

INVESTITURE

5 AUGUST

5 AUGUST A New Chapter of Student Leadership

The Investiture Ceremony formally welcomed student leaders into their new responsibilities.

The Investiture Ceremony marked a significant moment in the school's leadership calendar. Following the Student Council Election, the ceremony gave the newly selected representatives a formal platform to accept their responsibilities before the school community.

Leadership at school level is an important learning experience. It teaches students to be dependable, respectful and willing to listen. A student leader is expected to represent others with fairness, uphold school values and contribute to creating a positive environment for everyone.

The ceremony therefore represented more than badges, titles or formalities. It was a reminder that leadership is a commitment to service and that the strongest leaders lead by example.

TIRANGA YATRA

Patriotism • Unity • National Pride

TIRANGA YATRA

14 AUGUST

14 AUGUST Walking Together with the Tricolour

A vibrant expression of patriotism and collective responsibility.

The Tiranga Yatra on 14 August brought the school community together in a visible expression of respect for the national flag and pride in the nation. The Tricolour became a symbol around which students could experience unity, discipline and a shared sense of belonging.

Such activities help young citizens understand that patriotism is not limited to a single day or ceremony. It is reflected in responsible citizenship, respect for others, care for public spaces, honesty, discipline and a willingness to contribute positively to society.

Tricolour

Student participation

Patriotic spirit

“Many voices. One nation. One spirit.”

INDEPENDENCE DAY

Freedom • Sacrifice • Responsibility

15 AUGUST Celebrating the Spirit of Freedom

Remembering the journey of India's freedom while looking towards the responsibilities of tomorrow.

Independence Day was observed with patriotic spirit and reflection. The occasion reminds every generation of the sacrifices that shaped India's journey to freedom and of the responsibility that comes with being citizens of a democratic nation.

For students, Independence Day is also an opportunity to think about the India they will help build. Education, respect, integrity, unity and service are among the everyday values through which young citizens can contribute to the country's future.

"Freedom gives us rights; responsibility gives those rights meaning."

CBSE COOKING COMPETITION

Creativity • Teamwork • Practical Skills

CBSE COOKING

24 AUGUST

The CBSE Cooking Competition gave students an engaging platform to demonstrate creativity and practical skills. Cooking combines planning, presentation, coordination, cleanliness, time management and teamwork—making it a valuable experiential learning activity.

The competition also encouraged students to work with confidence and present their efforts with pride. Activities of this nature help learners understand that education is not confined to textbooks; real-world skills, collaboration and creative problem-solving are equally important.

NATIONAL SPORTS DAY

Fitness • Fair Play • Perseverance

National Sports Day highlighted the importance of physical activity and the role of sports in a balanced education. Sporting experiences teach students to work together, manage pressure, respect rules and continue striving even when the outcome is not in their favour.

The values learned on the field—discipline, resilience, cooperation and sportsmanship—are equally relevant in the classroom and in everyday life. Participation itself is a form of achievement because it builds confidence and encourages students to challenge their own limits.

“Play hard. Play fair. Keep moving forward.”

Tradition meets learning

Culture • Gratitude • Values • Professional growth

Culture

Gratitude

Values

Learning

September brought together cultural celebrations, occasions of gratitude and meaningful opportunities for professional development. It was a month in which the school community celebrated traditions while also investing in continuous learning and improvement.

TEACHERS' DAY

Gratitude • Guidance • Inspiration

TEACHERS' DAY

Teachers' Day was a special occasion to recognise the dedication and influence of teachers. A teacher's contribution extends beyond completing a syllabus: teachers encourage questions, build confidence, guide students through challenges and help learners discover their potential.

The day also offered an opportunity for students to express appreciation for the patience, care and commitment that teachers bring to their work. Every classroom carries countless small moments of encouragement, correction, explanation and support—and together, these moments shape the educational journey of a child.

“A good teacher teaches a lesson; a great teacher inspires a learner.”

DADIJI JAYANTI

Remembrance • Legacy • Values

DADIJI JAYANTI

11 SEPTEMBER

Dadiji Jayanti was observed as a meaningful occasion of remembrance and reflection. The day provided an opportunity to connect the present school community with the legacy, ideals and values that continue to influence its journey.

Remembering a legacy becomes meaningful when it inspires action in the present. Values such as sincerity, compassion, discipline, respect and commitment to education gain their true significance when they are reflected in everyday behaviour.

CBP TRAINING

Professional Learning • Reflection • Growth

CBP TRAINING

12-13 SEPTEMBER

The CBP training programme held on 12 and 13 September provided educators with a dedicated opportunity for professional development. In a changing educational environment, continuous learning helps teachers remain responsive to new classroom needs, approaches and expectations.

Training is most valuable when it encourages reflection and practical application. By exchanging ideas, examining practices and learning from professional experiences, educators can strengthen the quality of learning experiences offered to students.

Professional learning

Interaction

Group moment

GANESH PUJA

Tradition • Positivity • Togetherness

GANESH PUJA

Ganesh Puja was observed with devotion and positivity. Cultural occasions such as this bring people together and provide moments for gratitude, reflection and good wishes.

The celebration also offered students an opportunity to appreciate the richness of India's traditions and the importance of participating respectfully in community occasions.

Prayer

Celebration

JIVA TRAINING

Learning • Development • Better Practice

JIVA TRAINING

17 SEPTEMBER

The JIVA training session on 17 September added another dimension to the month's focus on professional learning. Training and development provide educators with opportunities to explore new ideas, refine practices and strengthen the systems that support effective learning.

A school grows when its people continue to grow. Professional development therefore contributes not only to individual improvement but also to the wider culture of learning, reflection and innovation within the institution.

Training

Learning

CCA — WHERE INTERESTS TAKE FLIGHT

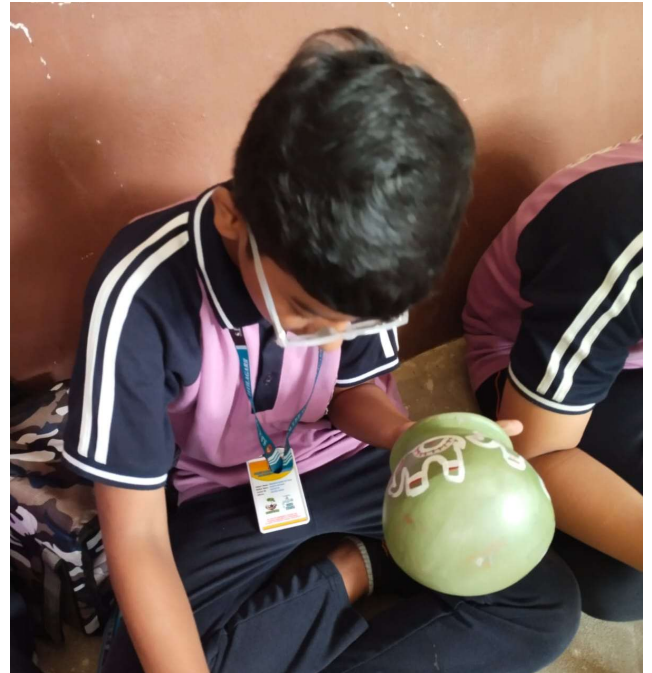

Creativity • Confidence • Communication • Collaboration

Every Wednesday, students participate in Co-Curricular Activities that provide a regular platform for creativity, expression and healthy competition. CCA helps students discover interests that may not always emerge through conventional academic work.

Whether students are performing, speaking, creating, drawing, competing or collaborating, these experiences build confidence and communication skills. They also teach students to work with others, accept feedback and take pride in their individual strengths.

“Every student has a talent. CCA gives that talent a stage.”
